

# EQMASTERY

## MAKE TRANSFORMATION A DISCIPLINE.

Tuition: \$595 or \$199 with VIP Access Membership

**W**hen transformation becomes a discipline – not a series of peak or high, immediate impact experiences – it is sustainable for a lifetime. The Masters Workshop is for graduates committed to living the distinctions of transformation day to day in their lives.

Imagine being able to approach any business opportunity, relationship, challenge or task from the perspective of it being a blank canvas – not bringing any history of your success or failure, judgements or beliefs into the present moment. The possibilities for creation are endless from such a viewpoint.

Becoming a master in the realm of personal transformation will produce numerous breakthroughs in your mental barriers, rippling into your personal and professional relationships, and offering new possibilities for thought, action and results.

In this 3-day experiential environment, you will focus on:

- Discovery—what is possible in your life
- Rigor—rigor is essential in achieving mastery
- Possibilities – making reality what you don't see possible
- Concept vs. experience
- Examination of beliefs that limit you
- Choice vs. obligation
- Personal values
- Creating results
- “Breaking the box” & discovering barriers to break
- Completing the past
- Eliminating limiting beliefs
- Maintaining transformation (keeping it “alive”)
- Practice, practice, practice!

This course is available to graduates of Discovery & Breakthrough, and begins at 10 a.m. on Friday.
